## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. In view of the Appeal Brief filed on 14-February-2006, PROSECUTION IS HEREBY REOPENED. *A new ground of rejection is set forth below.*

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

2. Status of the claims: claims 1-26 are pending.

***Claim Rejections - 35 USC § 101***

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1, 9, 17, 25, and 26 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 1 is not statutory because it merely recite a number of computing steps without producing any tangible result and/or being limited to a practical application (see MPEP 2106 IV.B.2.(b)). The definitions given in the specification for a system is broad enough so as to be directed to software per se, with no tangible result being

produced in the claims. The claims should entail transformation of article or material to a different state or thing with final results achieved “useful, tangible, and concrete” using a computer/hardware. The claims should be amended so that some kind of output is required and/or so a tangible result is produced.

For instance, in claim 1, the limitations of “allocation routine”... and “collection routine” are not interrelated to any hardware and/or have tangible embodiment and produces no real world results/output. Moreover, The heap is not recited as part of the claimed collector, just something the collector is intended to be used with (i.e. the claimed preamble recitation of “for collecting”). The collector, as recited, appears to be nothing more than software, per se.

Independent claims 9, 17, 25, and 26, recite similar limitations and therefore carry the same deficiency.

#### ***Allowable Subject Matter***

5. Claims 1-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101, set forth in this Office action.

#### ***Response to Arguments***

6. Applicant's arguments with respect to claims 1-26 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***
